

## Google ReCAPTCHA Keys Setup Guide

Google reCAPTCHA is a free service by Google used to protect a website from spam and abuse. ReCAPTCHA uses an advanced risk analysis engine and adaptive challenges to keep automated software from engaging in abusive activities on your site.

Both **Site Key** and **Secret Key** need to be obtained to run **Google Recaptcha**. The settings are located under **Manage Settings > General Settings > Third Party API > Google Recaptcha**.

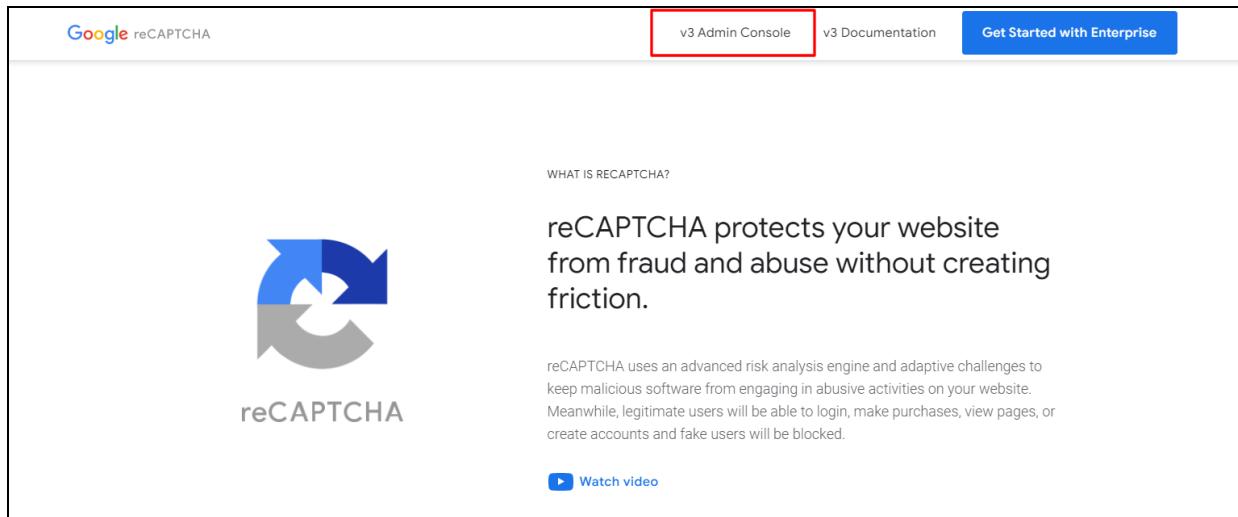

The screenshot shows a form titled "Google Recaptcha". It has two text input fields: "Site Key" and "Secret Key".

**!** Before you begin, ensure that you have a pre-configured Gmail account.

### **Step 1: Login to reCAPTCHA portal.**

1. Visit <https://www.google.com/recaptcha/about/> and click on **v3 Admin Console** from the header navigation.

WHAT IS RECAPTCHA?

 reCAPTCHA

reCAPTCHA protects your website from fraud and abuse without creating friction.

reCAPTCHA uses an advanced risk analysis engine and adaptive challenges to keep malicious software from engaging in abusive activities on your website. Meanwhile, legitimate users will be able to login, make purchases, view pages, or create accounts and fake users will be blocked.

**Label** i

0 / 50

**reCAPTCHA type** i

- Score based (v3) Verify requests with a score
- Challenge (v2) Verify requests with a challenge
- "I'm not a robot" Checkbox Validate requests with the "I'm not a robot" checkbox
- Invisible reCAPTCHA badge Validate requests in the background

**Domains** i

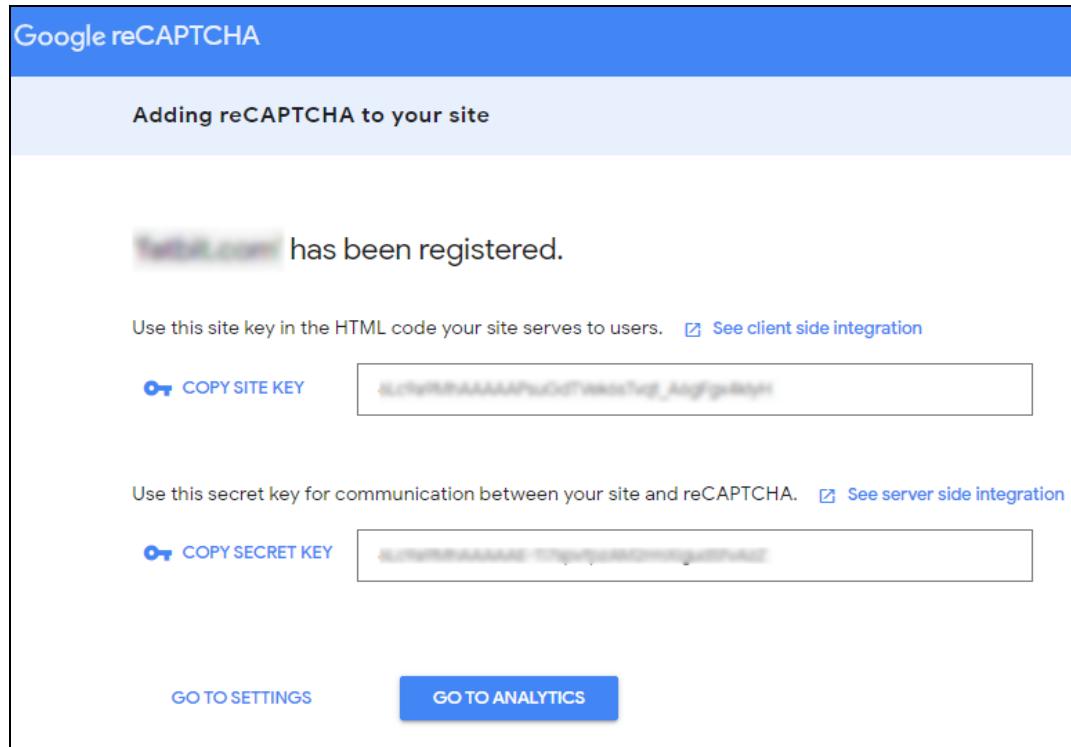

+ Add a domain, e.g. example.com

**▼ GOOGLE CLOUD PLATFORM**

- **Label:** Enter label name following the acceptable format: example.com.
- **reCaptcha Type:** From the radio buttons, select **reCaptcha V2**.
- **Domains:** Add domains details following the acceptable format: example.com.
- **Owners:** Enter the email addresses to be linked.
- **Accept the reCaptcha Terms of Service** : Select the check-box to accept the terms of service.
- **Send Alerts to Owners** : Select the check-box to receive alerts if Google detects problems with your site, such as misconfigurations or an increase in suspicious traffic.

Click on **Submit** to save the details added above.

2. Next screen reveals both **Site Key** and **Secret Key** for you to copy and paste into the Yo!Coach admin panel (**Manage Settings > General Settings > Third Party API > Google Recaptcha**).

3. Open the **Manage Settings > General Settings > Third Party API > Google Recaptcha** section and paste the copied keys into their respective fields.
